

## Professional Photo Editing Tools for Beginners and Experts

All-in-one imaging solution that acquire, view, edit and share your digital photos. Easy-to-use editing features to make everyone become expert! With the advanced PhotoRite Auto-Fix that corrects photos automatically, there will be no more disappointing photos!

### ✔ Highlight Features

#### PhotoRite Auto-Fix

The unique Auto-Fix function detects and improves poor photos taken under unfavorable lighting conditions automatically.

- ✔ Award-winning unique US patent pending technology
- ✔ Correct backlighting, uneven/under exposure, color casting, low contrast, haze problems
- ✔ All with one click

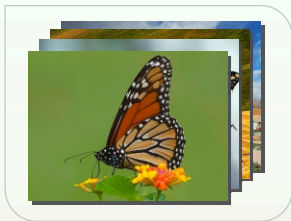

6th IT Excellence Awards (SMEs) Product Gold Award

#### Link-up with FotoGB.com Web Album

- ✔ PhotoRite FX links-up with FotoGB.com directly to allow efficient online photo sharing and organizing
- ✔ User can use the software to edit (e.g. enhance, crop, rotate) the photos before uploading
- ✔ Photos are resized in user's computer before uploading. This saves lots of time compared to uploading full size photos

#### Batch Photo Processing

- ✔ Auto-Fix multiple photos in one batch process! No more time wasted to manually re-touch every photo!
- ✔ Preview before-and-after effects of photos before confirmation
- ✔ Resize, Rotate, Rename multiple photos

#### Rich & Unique Photo Editing Tools

- ✔ Easy-to-use tools to handle common digital photos problems
- ✔ Creative photo filters to unleash your creativity and imagination
